

CMR GROUP'S VARIED ACADEMIC PROGRAMMES ACROSS MORE THAN 50 AREAS OF STUDY

The CMR Group of Institutions (CMRGI) is a unique education conglomerate based in Bengaluru. Founded in 1991, it has a rich experience in delivering academic excellence. CMR is able to provide every student with a value-based, comprehensive, top-notch education from the Montessori/Kindergarten level to Post Graduate and Ph.D. programmes. CMR today consists of K-12 schools, a number of institutions of higher education, a pre-university college, various centres of excellence in research,

and a private university.

The group caters to over 20,000 students from 60+ countries. The students benefit tremendously from the strong cross-competencies across the group. Academic programmes are varied and cover more than 50 areas of study including engineering, architecture, commerce, economics, education, law, management, business administration and psychology at the undergraduate, postgraduate and doctoral levels. These educational institutions are located at 11 different campuses across Bengaluru. Each of these institutions has carved a

niche for itself and is rated highly within its segment. CMR aspires to become renowned for its delivery of quality education by inculcating the right values, scientific temperament and social commitment among students, preparing them as trained professionals, inspired individuals and genuine partners of progress.

An overview of Raj Bhavan

brought a lot of highly qualified health professionals from abroad to set up base in the city. The city has over 100 marathons every

year, making it the fitness capital of India. It is possible for people to avail health services anytime, anywhere in the city today —

including home healthcare, diagnostics, and even healthy food from the comfort of their homes. With Bengaluru's cosmopolitan set up and favorable climate, people from other countries have also started coming to seek treatment in the city," says Meena Ganesh, MD & CEO, Portea Medical. Owing to its startup culture, the city has seen several new health care companies setting up shop in the bid to come up with new age cutting edge health
