

NAVODAYA'S CAMPUS OF POSSIBILITIES

Shri S R Reddy is a forward thinker and a renowned educationist. He believes that rural areas that are nestled in a serene environment, away from the hustle and bustle of the city, can impart better quality education. Over the course of 25 years, he has built thriving institutes at Raichur, giving students the Navodaya advantage. The campus of possibilities imparts quality education in Medical, Dentistry, Engineering, Physiotherapy, Pharmacy, Nursing, Paramedical and B. Ed colleges. Additionally, there is a Central School, a Public School, Hospitals, and Health Centres. Navodaya is a place that accommodates everyone's diverse outlook at life. The group of institutions is

built around a vast landscape with state-of-the-art infrastructure, a world-class library, hostel facilities,

Chairman, Navodaya

teaching hospital, and the best teaching faculty. All the students explore the wide range of opportunities that are offered to them and excel to their full potential, leading them to successfully take off in their careers. Secure your child's foundation at the Central School where they can flourish in knowledge imparted by an experienced faculty. The college is a family, home to 4,819 students

from over 62 courses across 12 institutes. The education trust is a testimony for turning dreams into reality with an aim to bring about social and economic change and a vision to make the group a premier education hub. Navodaya has set a new benchmark for exemplary education, driven by the commitment to career enlightenment.

is really amazing. An important thing to note is that teaching methodologies do not have to be dependent on gadgets as this is only an enabler helping

teachers explain complex things to students in a way that were not possible before.

Alok Katiyar, Founder, Madguy Labs says, "Instructors are now

including real world examples/experiences in teaching concepts. It helps a learner in visualising and has a totally different perspective towards things. It will be a very crucial aspect we will see across all domains in near future. Teaching with Visual, Audio, and Kinesthetic (VAK) is in. There are three main types of learners - Visual, Audio, and Kinesthetic. To really

master effective teaching now teachers focus on which type of students they have. Visual is all about seeing the material, audio is about hearing the material and
